Dear Pete,

I just received final confirmation that the S.F. Art Institute is interested in collaborating with us in presenting an evening of your work while you are visiting the Bay Area. As I've always enjoyed your presence at such affairs (one in N.Y.C. years ago, the one in Boston, and of course, the recent one here in S.F.), I hope you are still willing to consider doing something on November 24th (Thursday).

The Art Institute is able to come up with \$200 in addition to our usual \$200, for a grand total of \$400--if there is any problem with that amount please let me know. I've been in contact with Margie since discussions concerning your visit began weeks ago, and would like her to continue being liaison in planning the show. One thought which I might throw out--would you like to read portions of any of your writings (published or not)? We would be able to adequately amplify your voice, and I think it could serve to highlight an aspect of your activity which many here might otherwise be unaware of.

I hope you and Bernice are both well, as lively as ever, and I look forward to seeing you again.

Best,

Steve Anker
